"TRICKS THAT ARE VAIN,"-It was ansousced in yesterday's Gazatte that a "temperance revival" with "Col." And so it happened last night hat the 'temperance revival' was presided str by Mr. Ozert Beggett, radical, and opened th trayer by Mr. I. C. THE SUNDAY LAWS-VIOLATORS FINED, &c -The Sunday laws still continue to be the usio topics of conversation. Everybody seems to have semething to say either for or against them. It is understood Mr. Wesley Avery will request the Ciry Council at its meeting yor, with sundry of the same political to night, to refund the fine of \$4 assessed against him by the Mayer yesterday for condue ing the fish business at Fishtown Sunday

> The case of Mr. Harry Foliz, charged with distributing copies of the Washington Sunday Herald from his residence last Sunday in accor dance with a notice given in the Gazette of Saturday, came up before the Mayor in his office at 11 o'clock this morning. Messrs. Linden Kent and S. G. Brent, appeared for the copies of the paper at Mr. Foliz's house, but said that payment therefor was refused. On this state of facts the counsel claimed at acquittal, and argued further that no intent to violate the law for purposes of gain was made out. The Mayor, however, being determined to test the Sunlay law to the utmost, decided in accordance with his previous opinions to impose a nominal fine of \$2, and committed the prisoner to custody in default of payment. A writ of habeas corpus was immediately taken out and will come up before Judge Keith next Thurs-

> dry when the constitutionality of the Sunday laws will probably be decided upon. The Mayor also rendered his decision in the case of Mr. Henry Brengle, charged with selling ice cream on Sunday last, fining him \$2. At lightown the dealers are severe in their Deunciation of the laws, declaring that the fish trade has been driven to Washington, and as an evidence of the truth of their assertions, point to the fact that no fish of any kind have arrived there since Sunday. Mr. S. J. Reed, the rentor of the wharf, says his business has been br. kan up, and be intende to sue the corporation for \$2,500 damages.

> The lower Potomac fishermen declare that if the lower Petermae usnermen declare that it they are compelled to send their fish to Washington on Sunday, they will send them there during the week. While the agents were stending on the wharf talking this morning two boat loads of fish passed by on their way to washington. Washington, whereupon, they all, with one second cried out. The case came up be-In Commissioner Fowler this afternoon, and Mr. Curmichael was recognized to appear to-marrow morning at ten o'clesk. Gen. Hunton appeared for the necessed. After the trial a general conversation took place, in which some sovere offections were made upon the man who read the peatal card at the Washington postedies. Mr. B. Taylor Scott, of Warrenton was tartiatively avant upon the ton, was particularly severe upon the man who would read another man's letter, when Mr. Jas. Y. Bell, Superintendent of the General Delivery Department of the post-files declared, in an except desarrance that he read the card, and said that it was his duty to do so. Mr. Scott reiterated the remarks considered offensive by Mr. Bell. The dispute, which was getting warm, ended by Gen. Hunton, Mr. Scott, and Mr. Carmichael leaving the cilice of the Commissioner. Mr. Carmichael is a son-in-law of Hon, J. Randolph

THE FISHERY.-The fishing season for 1881 of Mary and, fishing one of the lower Potomac sheres, cut cut vesterday meraing. The last load of fish, -200 shad and 3,000 herring-from his shore arrived here yesterday in the schooner Annie Gibson, Capt. Charles Kelley. Capt. John Quaningham, of Maryland who has been fishing the Samp Neek, and Budd's Ferry sheres, has also cut out. The following will cut between now and the first of June: Chap man's Point, and Mexicy's Point, fished by James Skidmore; Stoney Point and Ferry Landing, fished by Wm. Keight; White House, fished by Henry Knight, All agree that this has been the most successful seas in so far as the catch of fish is concerned, for many years. Financially the success has not been so great owing to the low prices obtained for the

A CARD—It should be generally known that persons so unfortunate as to lose one or more of their teath need not wait weeks and months for artificial substitutes and endure inconvenience, disagreeable changes in voice, facial expression, &c., but may have artificial teeth made before and inserted immediately after extraction of their natural teeth. By this mode a better adaptation, a more pleasant expression and a nearer approach toward preserving the natural harmony of the features are seing the natural harmony of the features are secured, and very much of the pain and difficulty experienced in learning to use teeth are also avoided. I have practiced this mode successfully BOYS' SHIRT WAISTS for seven years, and having introduced it here, would be glad to refer any one interested to patients who know of it from experience In treating the natural teeth my object is to preserve every one that time, patience and modern methods of treatment can save. The use of arsenic in dastroying exposed nerves is condemned by the more enlightened of the dental profession on account of its turning teeth dark, inducing abscess and finally the loss of the teeth. The nerve pulp, which is the source of life to the teeth, should always be treated, when exposed, with a view to its restoration to health.
